

a) Inference times (seconds per observation)

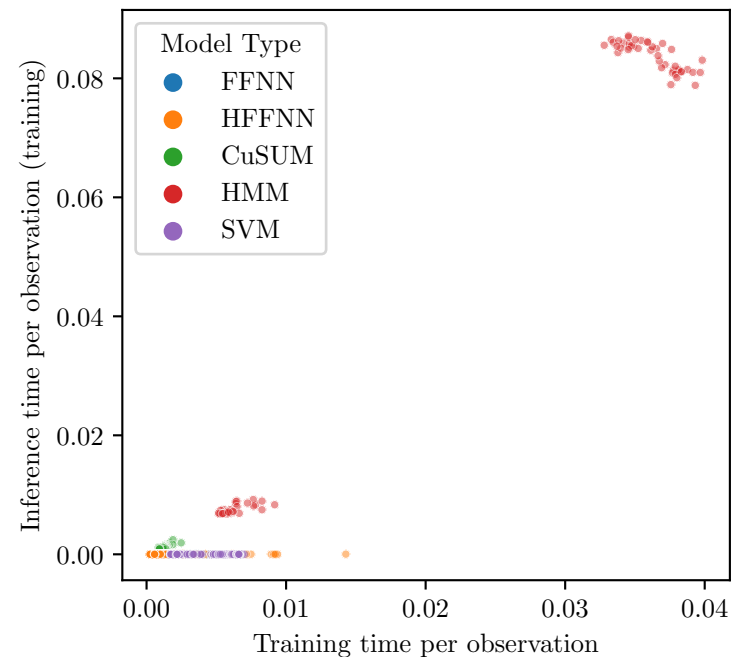

b) Inference times (seconds per observation)
(training time < 0.005s)

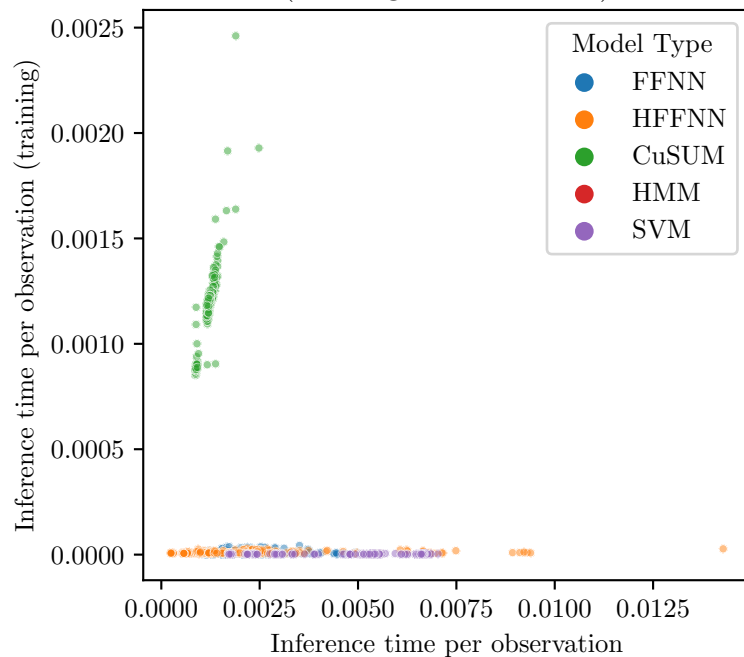

c) Inference times (seconds per observation)
 $\times 10^{-5}$ (training time < 0.00005s)

d) Inference vs training times (seconds per observation)

e) Inference vs training times (seconds per observation)
(training time < 0.005s)

f) Inference vs training times (seconds per observation)
 $\times 10^{-5}$ (training time < 0.00005s)
